

### Biodegradable Bicomponent PE/PET Fiber

Layo offers all specifications of **Biodegradable Bicomponent PE/PET Fiber** which is a popular chemical fiber in the hygiene market. We select qualified China based suppliers for customers around the world, Layo has been successfully supplied to some well-known brands in Europe. We hope to establish friendly cooperative relationship with your company with high quality products, reasonable price, considerate service and create a better future hand in hand.

As a professional high quality **Biodegradable Bicomponent PE/PET Fiber** manufacture, you can rest assured to buy **Biodegradable Bicomponent PE/PET Fiber** from our factory and we will offer you the best after-sale service and timely delivery.

China based supplier of **Biodegradable Bicomponent PE/PET Fiber**: sheath/core concentric structure based bicomponent fiber, with a property of low melting point sheath-Polyethylene and core material- Polyethylene Terephthalate, standard hydrophilic or hydrophobic spin finish, by adding additives to make fibers to be biodegradable.

## Product Technical Indicators

Standard TDS of 2den 38mm Standard **Biodegradable Bicomponent PE/PET Fiber**

Characteristic	Unit	Min	Max	Test Method	Remark
Linear Density	dtex	2.2	2.46	GB/T14335-2008	
Cut length	mm	37	39	GB/T14336-2008	
Tenacity at peak	cn/dtex	2.3	3.08	GB/T6504-2017	
Elongation at peak	%	40	80	GB/T14337-2008	
Crimp n.	n./10mm	10.5	13.5	GB/T14328-2008	Adjustable
Spin finish	%	0.3	0.4	GB/T6504-2017	Adjustbale

## Product Specification Details, And Precise Application

China based supplier of **Biodegradable Bicomponent PE/PET Fiber** It is an ideal fiber for thermal bonding nonwoven fabrics which are widely used for hygiene products, such as femcare and baby care. Below the specification range:

Fiber denier: 2dn ~ 6dn,

Main cut length: 38mm or 51mm,

Spin finish: standard hydrophilic or hydrophobic
